- Theodolites
- Heavy-duty rotating lasers

Video Strapless-Go

Strapless-Go leg locking system without a strap

Nedo's innovative system for locking the tripod legs eliminates the need for straps to hold legs in place for transport. The tripod legs snap together automatically when they are pushed in. It's quick and convenient. No more troublesome strapping to lock the legs.

To release the lock, first pull out the leg with the printed Nedo logo. The legs immediately unlock and you can set up the tripod.
